

Erie Plating Company TWiki Customizations

IT Task Management System

Create a new task entry and automatically populate the form fields in the edit view with the information entered in the "New Task" form.

The screenshot shows the TWiki interface for 'EPCOIT.NewTask'. The page has a navigation bar with links: WebHome, RobertVanceTasks, AllIncompleteTasks, NewTask, Changes, and Go. A search box is also present. On the left, there are sections for 'Topic Actions' (Edit, Attach, PDF, Print, References, Move/Rename), 'Revisions' (Complete List, r1.7, r1.6, r1.5), 'ParentTopic of', 'Related to', and 'Search TWiki' (with options for Body Text, All webs, Topic Name, and RegEx). The main content area is titled 'New Task' and contains a form with the following fields: TaskType (InformationTechnology), TaskTitle (empty), TaskPriority (empty), AssignedBy (Main.RobertVance), AssignedTo (empty), Topic (Task20070208112225), and Template (TaskTemplate). A 'New Task' button is located below the form. The footer of the page reads 'Portions Copyright: 1991...2007 Resad'.

Dynamically generated pages that display all incomplete items in the task management system.

IT Inventory Management System

Create a new inventory item and automatically populate the form fields in the edit view with the information entered in the "New Inventory Item" form.

The screenshot shows a web application interface for 'EPCOITInventory.NewInventoryItem'. At the top, there is a logo with the letters 'EP' and a navigation menu with links for 'WebHome', 'Changes', 'Index', 'Search', and 'Go' followed by a search input field. The main content area is titled 'New Inventory Item' and contains a form with the following fields: 'Topic' (EPCO), 'Type' (Miscellaneous), and 'Template' (ItemTemplate). Below these fields is a 'New Item' button. On the left side, there is a sidebar with several sections: 'Topic Actions' (Edit, Attach, PDF | Print, References, Move/Rename), 'Revisions' (with a 'Complete List' link and version information: 'r1.1 - 25 Nov 2005 - 12:13 PM - SteveMokita'), 'ParentTopic of', 'Related to', and 'Search TWiki' (with radio buttons for 'Body Text' and 'Topic Name', and checkboxes for 'All webs' and 'RegEx'). At the bottom right of the page, there is a copyright notice: 'Portions Copyright: 1991..2007 Kessed'.

Dynamically generated pages that display all items of a particular type. Erie Plating Company currently has five different "types" of inventory items: computers, displays, printers, software, and miscellaneous. Each has a separate bar code system. The inventory item number, also the page title in the TWiki?, correspond with a bar code label on the actual devices. The below image is an example of one of these pages; this particular page being all computers.
